GOOD TIME AT SUNDAY SCHOOL PICNIC BY ALL

The annual Gleichen United Church Sunday school picnic was held down at the Bow river last Thursday afternoon, and proved to be a great success, with most of the children from the town and country in attendance, as well as many of the grown-ups. Everyone seemed to have a most enjoyable time.

Having thoroughly enjoyed themselves paddling in the buxwackers of the bow, many many took part in the lengthy sports program, at which a dainty luncheon was served. There was a spread of about fifty feet of good things to eat placed before the children, including cakes and ice cream, etc. The children many had filled themselves to the limit, judging by the way several looked their belts. After the children had been served to their hearts' content, their elders partook of a most enjoyable feed.

The committee would like to take this opportunity to thank all those who so generously helped to make this picnic a success.

The following are winners of the sport events:

TIME IS EXTENDED FOR DELINQUENT TAXPAYERS

Further days of grace will be extended to delinquent taxpayers in rural municipalities and improvement districts by virtue of action now being taken by the Department of Municipal Affairs, Hon. H. G. Reid in notifying local members of the legislature and secretaries of municipalities that in the case of improvement districts the Crown will not take ownership of lands defaulting under tax recovery proceedings for 1922 until the first of December. The suggestion is also being made to municipal secretaries that they may quite properly adopt similar course in respect to lands due to pass into possession of the municipalities.

Mr. Reid points out that the Tax Recovery Act provides that title to such lands shall be taken "after the expiry of the redemption period", but there is no stipulation as to how soon this shall be done. In view of the prevailing harvest and market conditions and the probability that farmers will not get cash returns for their crops for some months, it has been thought desirable to call attention to the fact that municipalities are not by law compelled to issue transfers immediately upon expiration of the year, unless they so desire.

The effect will be to give taxpayers a further opportunity for redemption, since the government is anxious that tax payers desirous of redeeming be allowed an extension of these months, and in regard to lands due to be taken over by itself that is the course already decided in a considerable number of cases.

It is thought by December 1st a considerable number of delinquents will be able to meet their tax bills and redeem their lands.

What happens Sept. 21st, boys and girls?

A. GIGUERE DIES SUDDENLY AT HIS HOME NEAR CLARY

The death of Adam Giguere, which occurred at his home north of Clary last Thursday, August 30th, came as a great shock to his family and many friends in that neighborhood. He had not been feeling well for a few days previously but was not considered seriously ill. However, he suffered a hemorrhage Wednesday night and passed away about six o'clock Thursday morning.

The funeral took place Saturday morning, when the Rev. Father of Edmonton conducted the service in the South Camp Mission chapel, after which the remains were laid to rest in the Gleichen cemetery. Unfortunately, it being the autumn later to ship the body to his former home in the province of Quebec.

There was a large attendance of relatives and friends at the service and the deceased had gained the esteem, respect and friendship of the entire community by his kindly manner with all whom he came in contact.

The deceased gentleman was born 42 years ago in St. Flore, Quebec and came west to Clary about six years ago to take up farming along with his sons, making very good success in all his undertakings.

Besides his wife he leaves to mourn his four sons and four daughters; also three brothers and three sisters, namely:

Adam Giguere of St. Flore, Quebec;

Albert Giguere of Shanganigan Falls, Quebec;

Alfred Giguere of Glenora, Que.

Mrs. M. Giguere of Shanganigan Falls, Quebec;

Mrs. F. Leplastier of Glenora, Que.

Mrs. B. Fournier of Shanganigan Falls, Quebec.

The surviving daughters and sons are: Elsie, Emma, Irene and Leola and Philip, Emiel, Robert and Eugene Giguere, all of Clary.

FARMERS ARE BUILDING FERRY SOUTH OF TOWN

"Fortune always favors the enterprising as well as the brave."

As the farmers across the Bow river, directly south of Gleichen, could not prevail on the Government to install a ferry for the grain hauling season, owing to lack of revenue, they subscribed locally almost the entire cost and sent a delegation. Mr. Paul Norton and Mr. Milton Ward, accompanied by our local member, Mr. J. C. Buckley, to wait on the Minister of Public Works, who, admiring their self effort, promised them all the necessary professional and skilled help needed, also the loan of a cable and mountings so that their recreational energy will be rewarded by having a ferry when hauling their big loads on the short days.

A barn dance is being given next Friday night at Mr. and Mrs. A. S. Towler's home north of Gleichen, when a big time is expected and to which one and all are invited. Mrs. Towler's orchestra has been engaged for the occasion and the ladies are requested to bring along baskets.

The hunting season for ducks and geese will open this year on September 15th. The bag limit is 75 per day or 200 for the season. The season for prairie chicken and quail is from October 15 to October 31.

Three weeks from Friday the Gleichen School Fair opens. Get ready boys and girls.

The beautiful cake was laden with floral offerings sent by friends both far and near.

TOWN AND DISTRICT

Sep. 21—Gleichen School Fair at School of Agriculture.

Labor Day was duly observed in Gleichen and a night quiet town it was. Miss Emma Jones came down from Edmonton to visit her parents last week.

Mr. Chris Gleichen gave the Call as fine a head of corn as we have ever tasted, last Tuesday morning.

The greatest chess battle in Gleichen to-day are the spins of the cash registers ringing for the new area of prosperity.

E. de Maquard with her three boys returned home, Saturday morning from spending the month with relatives at Seattle and other western points.

Those using spot lights and failing to use dimmers on their autos are given a kindly warning to stop the practice by our local police. Also one light will not be allowed in future and the gun will be visible.

S. Helmer is the first to report to have started threshing in this district. H. Wilson started with his outfit yesterday and today Kenneth McPhee is bringing in the first load of wheat to the elevator.

A meeting of the Gleichen City Club will be held on Wednesday the 12th of September at 8 p. m. sharp in the Masonic Hall. The purpose of this meeting is to discuss City Club matters, and line up new members etc. A good representative meeting of the old members is expected and a hearty invitation is extended to those interested in City Club who wish to join.

M. Bollinger presented the Call with the 100th anniversary of the Call with a long line, being no less than two fine cones of honey from his bees just out of town. This we believe is the first honey produced in this district and Mr. Bollinger states his bees are doing exceptionally well and intends to go in to the business quite extensively in the future.

Mr. John Fleming returned Monday from a vacation of over three months spent at his home in America, Ontario, and other western points. He reports having had a fine time and enjoyed himself thoroughly and in the return journey he was taken ill near Winnipeg and reaching Medicine Hat was ill for three weeks but fortunately was with him to get to his home where he will soon be his former self. He found everything changed in the east, it being 42 years since he first left there and came to make his home in Gleichen. During his absence a sister died, but he was surprised to find his oldest brother at the age of 85 years still able to do all ordinary work on the farm.

A Montreal dispatch says that cable-bolting by electricity was carried through with great success lately and 200 stokers were made to work by one "C" in the Montreal works yards to the complete satisfaction of members of the Canadian Society for the Prevention of Cruelty to Animals. The stokers did not appear to know that they were being marked with red hot iron and that they were being injured. The hole is nearly closed off leaving the required mark as plainly visible as the stoker's hand burned into the original. It will now be up to our cowboys to carry with them on the range an electric cord.

PICTORIAL TRAVELOGUE

Those who were fortunate enough to be present at the entertainment the United Church Sunday evening of last week were rewarded with an exhibition of the photographic art seldom seen in a country town. The program, which started with a trip across the Atlantic, included "Millionaires without a Cent," "Lakes Louise, and a beautiful film of Lord Burren's visit to Gleichen with the radio broadcast on our Agriculture Society grounds.

Many well known persons were to be seen as the pictures were presented and the audience were quick to note their favorites. The use of the pictures was given by the Canadian Pacific Railway through their district passenger agent, Mr. J. E. Proctor, of Calgary.

If ignorance is bliss, it's funny there aren't more happy people in this world.

Local & Otherwise

Almost every mail brings to our office copy which we are asked to publish free of charge. It is all propaganda except what is pure advertising matter. It clutter our waste paper basket and represents waste and nothing else but waste unless some newspaper use it to fill up. If they do they are very foolish.

Three little babies have arrived at the house of Mr. and Mrs. J. B. The former was so advised over the telephone recently by little Jimmie, who seems to be very much delighted with the new members of the family. Two of them are black and one is white. They are taking nourishment and the mother and little ones are all doing nicely according to latest reports. Oh, yes, we forgot to mention that they were three little titlins.

Good schools, good churches, and good roads are a grand thing to have in the district. In order to have these things people must be educated to take pride in all these. Your home paper can and will do more to encourage all of these things than any other agency. The school children read with pleasure the home happenings, and they grow up to become educated and make useful citizens. Give the children the home paper to read. It costs you but a trifle.

Erna McKee, 33 year old daughter, who travelled home Oregon last 80 years ago checked in his room at the hotel as he told of whiskey at 35 cents a gallon and the "rappers" of the "fifties." "Flapjacks," he laughed, "because they called them 'flapjacks' each day. They looked their half then as much as now only they let it all down to the whiskey? It cost .35 cents a gallon, and it took three gallons to buy a bushel of potatoes. That was the good days. Men were hard ridin', hard shootin' son-of-guns then."

2000 TOO MANY BUFFALO

An Ottawa despatch says the Dominion of Canada has two thousand surplus buffalo and they are to be slaughtered. The contract for the slaughter has been given by order-in-council to A. S. Buckle, of Edmonton, who performed similar services for the government in 1894, a smaller scale last year, when 250 head of buffalo were killed. The once vast numbers of a race of animals which had been showing signs of disappearing are now numerous on the range at the National Park at Watrous. For some years the Dominion Government has been paying special attention to the preservation of these animals and so successful has this work been that the accommodation in the park is being overtaxed. Consequently two thousand of the buffaloes are to be slaughtered this fall and the meat and skins sold.

A young man and lady got on a street car the other day and there were no vacant seats the young man said in a loud voice to the young, "Will you give me the privilege to work to the lady a seat?" The negro did so, but the young lady, the next day, the young man hurriedly appropriated it without offering it to the negro. Just then a stout negro washerwoman entered the car. As no one offered her a seat the negro with a smile said to the young man: "Will you have the privilege to give this lady a seat?" For a moment he hesitated, but at last complied with the request, very much to the disgust of the young woman. To the disgust of the young woman.

Printers in Germany are striking for a raise in wages to three million marks a week. They wouldn't advertise in Germany for a while. Though at three million marks a week they are only \$4.30 in Canadian currency.

Getting the battery charged is not nearly so much of a problem to the average motorist as it used to be a place to get gasoline charged.

WHO WANTS THE JOB

"We presume that you know this job of getting up a weekly paper is a joke. If we print jokes folks say we are silly. If we don't we are too serious. If we are original we lack variety. If we publish things from other papers we are too lazy to write our own. If we don't go to church we are not serious. If we do we are hypocrites. If we try to reason with anyone we are silly. If we don't we have no pop. If we wear old clothes they are not paid for. If we smile at the ladies we are, a flirt, if we don't we are cranks. If we favor prohibition we are selfish, if we don't are drunkards. If we own a car we ought to give everyone a ride, if we don't we are the triple load of past, present and future obligations without sufficient funds to meet them. There is just pride and pleasure in knowing that there is going to be a surprise let when the weekly hills are paid—much greater pleasure than the temporary enjoyment of things we cannot afford."

SUCCESS TALKS

The practice of judicious economy is one of the prime essentials to success. Economy, like intelligence and uniform work, is constructive—and no one who can hope to enjoy real independence who does not keep his expenditures well within the limits of his income.

The reckless spending of money quickly becomes a habit, and those who allow themselves to be enticed by extravagance are burdened with the triple load of past, present and future obligations without sufficient funds to meet them.

There is just pride and pleasure in knowing that there is going to be a surprise let when the weekly hills are paid—much greater pleasure than the temporary enjoyment of things we cannot afford.
